Ease of use Features

Highlights

Galvanic – Galvanic treatment has two functions: the first, Iontoderm promotes deep skin cleansing and the second, Iontophoresis facilitates cream, lotion, and solution penetration deep into the skin.

Iontophoresis: This function facilitates product penetration, a process based on the process at the poles, like magnets. While using this Galvanic Current, there are two (2) Poles, Positive and Negative: Positive Pole: Hardens and Firms Tissue - Soothes Nerves - Reduces Redness - Germicidal Negative Pole: Softens and Relaxes Tissue - Irritates Follicles and Stimulates Cells - Increases Blood Supply - Germicidal. Use with any conductive gel and Skin Serum for excellent result.

Specifications:

Length: 11"

Width: 7"

Height: 4"

20W

50/60Hz

AC 85-265V~
